## DISCOVER THE ROMANCE OF THE ROAD.

There's something inherently romantic about being on the road. Perhaps it's the exhilarating freedom, the promise of adventure or the anticipation of discovery. Whatever it is, when you wrap it in the style and luxury of the 2007 Scepter, you can't help but fall in love with life on the road. Whether it's just the two of you or a large crew, the Scepter provides plenty of space with models ranging from 36 to 42 feet. With a style made to inspire, the 2007 Scepter features beautifully finished wood cabinetry and trim, lavish furnishings and striking decor choices. The new exterior is sure to delight with

a striking five-color paint scheme. But under the beauty you'll find Holiday Rambler's multi-layer construction that ensures you'll continue to find adventure and romance for years to come.

### NOW THIS IS BIG.

New for 2007 is a really big idea from Holiday Rambler, the PanaSuite™ full-wall slide. It makes a world of difference, creating a roomy, uninterrupted space. And, it's available now on select Scepter floorplans.

## WHERE THE LIVING IS EASY.

Scepter's many conveniences let you focus on enjoyment rather than endless chores. Meals seem to come together effortlessly in the ingeniously designed kitchen. There's plenty of room for food prep, especially with the roll-out extension with drawers that's standard on several floorplans. Cooking is a breeze with quality appliances, all available in stainless steel, including a convection microwave oven and an optional residential-style 14-cubic foot refrigerator. When possible, we've moved the refrigerator into the slide-out for an even roomier feel. For quick cleanups, the stainless steel sink features a single

lever faucet with pullout sprayer. There's also a separate faucet for cold, filtered drinking water on demand.

The convenience continues when you add the optional washer/dryer combination hidden behind beautiful wood cabinet doors. The Scepter's cabinets and trim seem to glow with a new finish that showcases the natural beauty of the wood. You can take it all in while enjoying romantic dinners for two at the dinette table that adds to the beauty and convenience with a Corian® solid surface top.

## LIVE YOUR DREAMS.

No, you're not dreaming. All this can be yours with Scepter. The private quarters create an atmosphere of relaxation, indulgence and romance. It starts with the sumptuous bed — a king in all 42' floorplans with the option of a Select Comfort air mattress on all beds. An oversized rear wardrobe and a dresser with an integrated hamper hold all your belongings, with added storage in overhead cabinets. Finishing touches such as a decorative headboard, designer carpeting and fabric valances add style, while blackout day/night

pleated shades add privacy any time of day. You can even include a ceiling fan for a touch of home.

The private bath is equally dreamy, boasting a one-piece round shower with a reeded glass door on most floorplans and an increased shower height on all models. And, because no one dreams of lugging a vacuum around, we have the option of a central vacuum system that stores neatly out of sight, yet is easy to reach when needed.

## GIVE IN TO THE LURE OF THE OPEN ROAD.

There's no denying the urge to roam once you slide behind the wheel of the Scepter. Before you bring the power of the Cummins® ISL 400 engine to life, take a moment to look around. You'll find everything right where you need it, with controls at your fingertips. Add the 3-camera rear vision system and GPS for even more control.

The view from the cockpit is stunning, especially with our exclusive Panaview™ 1-piece windshield. With a large unobstructed view, slender side pillars and

wipers mounted below the sight line, Panaview adds an unsurpassed level of driving safety, too. Take in the scenery, or turn the cockpit into your own movie theater with the addition of a 32" flatscreen TV overhead with DVD player and home theater surround sound.

New for 2007 is an optional tile runner from the cockpit to the kitchen. Another update is the increased size of the pass-through storage. Now bigger than ever, it features side-hinged doors and pullout trays for easy access.

STYLE TO SPARE.

There's no denying Scepter's style. It begins with colorful exteriors and extends into the living quarters that have a flair all their own. Beautiful fabrics combine with accents, wood cabinets and flooring to create a look that's both dynamic and comfortable.

## ROADMASTER R-SERIES CHASSIS

Thanks to the Roadmaster RR8S Series chassis — and the RR10S Series for our 42-foot model — the 2007 Scepter delivers the very best performance in its class. That's because these custom-built chassis are designed to the highest standards for a luxury motorcoach and follow the exact specifications of each floorplan. You'll enjoy the smoother ride, superior front-to-rear balance and many other sophisticated features. We invite you to take a few minutes and discover all the ways Roadmaster offers you the finest in safety, reliability, comfort and convenience.

**RR10S SERIES TAG AXLE**  
(found on 42' floorplans)

The tag axle lifts for added maneuverability in tight spots. It's just one more great feature from Holiday Rambler that adds to your coach's overall performance and most importantly, your safety.

1 Equipped with a steel firewall for added safety.

2 The main rails feature an exclusive raised rail design which provides for larger full pass-through storage bays with flush floors. Other highlights include a 3/8" thick frame rail — compared to the 1/4" of other manufacturers — and a stacked aluminum intercooler and radiator for optimum heat transfer and cooling.

3 The power steering box allows for a 50-degree front wheel turn angle in both directions for better maneuverability and returns the steering wheel back to its center position to eliminate driver fatigue.

4 Eight outboard-mounted air bags work in conjunction with gas-powered shock absorbers to prevent road trauma from ever reaching the coach.

5 Three monitored leveling sensors (two in the rear, one in the front) continually adjust the air pressure within each air bag to maintain a level ride and eliminate nosediving, weight transfer and floating on curved roads. This system also stabilizes the coach side to side on uneven roads and while maneuvering through curves.

6 Truss System with Rust Inhibitor: This steel truss system is engineered as part of the chassis and provides outstanding strength and rigidity plus pass-through storage. In addition, the structure is pre-primed and coated with a rust-inhibiting paint.

### 9-LAYER ROOF CONSTRUCTION (top to bottom)

- Seamless one-piece crowned smooth gel coat fiberglass roof
- Luaun backing
- 2-1/2" thick, tapered bead foam insulation
- 1-1/2" x 3" aluminum I-beam superstructure on 16" centers is filled with 3" fiberglass insulation
- Vapor barrier
- Structure foam: thermal insulative barrier
- 1/2" bead foam insulation
- Foam padding for extra insulation
- Padded vinyl ceiling

7 Dual fuel fill allows you to fill the tank from either side of the coach, for greater convenience and flexibility at the pump.

8 The aluminum fuel tank is lightweight and resists corrosion, unlike steel tanks.

9 Air Bags and Shocks: The cushion air glide suspension system with eight outboard-mounted air bags and eight gas shock absorbers combine with ride height sensors (two in rear, one in front) to deliver better ride and handling.

■ Cummins® ISL 400 Diesel Engine: You'll enjoy the peerless performance of the Cummins® ISL 400 electronic engine and the Allison® 3000 MH 6-speed World Transmission with electronic shifter. This powertrain offers 1200 lbs./ft. torque for maximum uphill performance.

■ A 10,000 lb. tow hitch rating is the highest in its class.

■ Engine Mounting: The three-point engine mounting system lowers the coach's center of gravity and reduces the amount of vibration that reaches the coach. The mounting also makes the engine easier to service by allowing the engine to be easily lowered through the bottom of the coach.

■ The side-mounted aluminum radiator and intercooler reduce weight, are rust-resistant and deliver better heat transfer than steel cooling components.

■ Automatic Traction Control (ATC) eliminates wheel slippage in slick conditions and heightens control. The Anti-Lock Braking system (ABS) gives you superior stopping power, especially on steep grades. Together, these sophisticated systems offer the very best safety on the road.

**SLIDE-OUT CONSTRUCTION:**

When you purchase a Holiday Rambler, you can be sure the slide-out boxes are some of the strongest and most reliable you'll find anywhere. They feature our exclusive multi-layer construction to give you maximum insulation and to reduce the chance of warping, twisting or shifting.

\* Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

\*\* All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

\*\*\* Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Holiday Rambler provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. ### THE POWER BEHIND THE NAME.

At Holiday Rambler, every one of our RVs shares something special — something that’s hard to describe, but easy to recognize. It’s that unique touch that makes Holiday Rambler stand apart. It’s our complete dedication to quality at every level — from the designers who create unique looks to the craftsmen who apply the finishing touches. It’s our unbeatable service, which gives you 24-hour availability, 365 days a year. It’s a commitment to safety and a tradition of innovation. And finally, it’s the best people in the business. The Holiday Rambler difference. It’s in every RV we make — including yours.
